

## Concrete Hoppers

Concrete Hoppers - The self-dumping hopper accessory could automatically trigger to both unload and release as the bumper release touches the side of a dumpster. As soon as dumping is done, the hopper is able to go back to original locked and upright position. This piece of machinery is even accessible together with a cable that allows operation from the seat of the forklift to be able to have the choice of manually dumping the hopper. There is a locking chain provided to be able to secure the hopper to the fork truck. This particular product is made with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper even has a blue powder coat finish in order to maintain durability.
